These drawings are conceptual only and are for the convenience of reference. They should not be relied upon as representations, express or implied, of the final detail of the residences. Units shown are examples of unit types and may not depict actual units. Stated square footages are ranges for a particular unit type and are measured to the exterior boundaries of the exterior walls and the centerline of interior dividing walls and in-laid vary from the area that would be determined by using the floor plans and distribution of the unit and lot footings. The decorative finish generally only includes the interior areas between the perimeter walls and excludes interior architectural components. Note that measurements of rooms and baths on this floorplan are generally taken at the greatest points of each room (as if the room were a perfect rectangle, without regard for any alcoves). Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.
