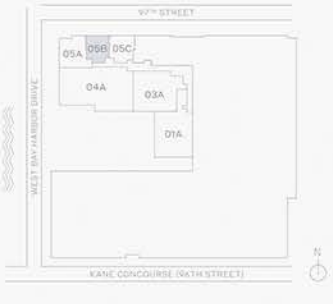
1 Bedroom / 1.5 Bathrooms

THE WELL
BAY HARBOR ISLANDS
MIAMI

Specifications

Total	924 SQ. FT. | 96 M²



This project is being developed by 1177 Bay Harbor Islands, LLC, a Delaware limited liability company ("Developer"), which has a limited right to use the trademark names and logos of Terra and THE WELL. Any and all statements, disclosures and/or representations shall be deemed made by Developer and not by Terra or THE WELL, and you agree to look solely to Developer (and not to Terra, THE WELL, or any of their affiliates) with respect to any and all matters relating to the marketing and/or development of the project. The Terra and THE WELL groups of companies are each composed of several separate corporate and legal entities. Reference to Terra and THE WELL is merely for convenience and should not be relied upon for any other purpose. Developer is not acting as the representative of the developer. For correct representations, make reference to this brochure and to the documents required by section 718.503, Florida Statutes, to be furnished by a developer to a buyer or lessee. These materials are not intended to be an offer to sell or solicit Residents to buy a unit in the condominium. Such an offering shall only be made pursuant to the prospectus (offering circular) for the condominium and all statements should be relied upon only when made to the prospective or to the applicable purchase agreement. In no event shall any solicitation, offer or sale of a unit in the condominium be made in, or to residents of, any state in which such activity would be unlawful. Square footages and dimensions are approximate and are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and as such may vary from the square footages and dimensions that would be determined by using the descriptions and definitions of the "unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls, and excludes all exterior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the units with units in other condominiums which may have been measured using a different method. Measurements of rooms set forth on the floor plans are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for irregular angles or variations. Accordingly, the area of the actual room will typically be smaller than the square footage computed by multiplying the lengths and widths. All dimensions are estimates and are subject to change during construction, as will floor plans, specifications and site plans. Actual square footage, dimensions and finishes may vary from those shown and will not necessarily accurately reflect the final plans and specifications for the development. The project graphics, renderings and text provided herein are copyrighted works owned by the Developer. All rights reserved. Unauthorized reproduction, display or other dissemination of such materials is strictly prohibited and may constitute a copyright infringement. No real estate broker is authorized to make any representations or other statements regarding the property, and no agreements with, discounts, etc. or other arrangements made with any real estate broker are or shall be binding on the Developer. Equal Housing Opportunity.
