Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and in fair view from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). For your reference, the area of the Unit, determined in accordance with these defined unit boundaries, is as set forth in Exhibit "J" to the Declaration of condominium contained in the Prospectus. Measurements of rooms and areas are approximate and are based on the overall dimensions of the Unit, and do not include areas for hallways, closets, or any other irregular closets or verandas. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily reflect final design or construction. The developer reserves the right to make changes, alterations, modifications, or additions, without notice, to any other regular closets will not be finished or furnished with accessories, millwork, or furniture packages. These spaces are intended to be customized by the owner according to their preferences after closing. Wine cellar is not included by the Developer. The wine cellar area indicated on the plans for Sky Residences and Penthouse is for illustrative purposes only. The necessary infrastructure will be provided for future installation by the owner. Any such installation and/or customization shall be the owner's responsibility after closing. All depictions of appliances, counters, softa, floor coverings, furniture and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit.
